

ST REGIS

MEXICO CITY

To whom it may concern:

The St. Regis Mexico city had the absolute honor of working alongside ELEQT- Part of the Quintessential Group- to create a modern and seductive launch event for the Mexico City elite. While working with them we noticed that ELEQT works wonderfully with vendors and clients alike, creating a great experience for both sides of the event; their professionalism and commitment distracted throughout the planning process made it easy to work with them. We are very happy to have collaborated with them, and look forward to keep doing so in the future.

ELEQT has helped us get further in touch with our market segment thanks to a larger exposure in social media during their event. The platform is a great way to get in touch with the luxury industry leaders.

From our point of view, we recommend ELEQT immensely for their hard work and dedication to organize an event that many people will remember for ages.

Best,

Laura Villalobos
