

To whom it may concern,

Following our highly successful 'A taste of Argentina' event held in partnership with ELEQT, GAUCHO Hong Kong would happily work with the organisation again. Throughout the process of planning and executing the event, I witnessed the dedication and professionalism of the ELEQT team and their ability to attract a high calibre of clientele.

In addition to this, it was clear that the collaboration was a beneficial endeavour for both ELEQT members and our organisation and we look forward to repeating this success and building on the fruitful relationships made.

ELEQT has helped GAUCHO Hong Kong to make new contacts and raise brand awareness in our market sector and I would like to thank their team for their hard work and dedication to create a truly memorable evening.

Kind regards,

Jacob Clark
